

Leybold- Heraeus IS30/III vacuum casting furnance O1645, used

manufacturer :
Leybold- Heraeus

Product number:
O1645

Description

Furnace

Manufacturer	Leybold- Heraeus
Model	IS30/II
Year of Manufacture	1974/2004
Comments	

Technical data

The nominal output power	250 kW
Power Connection	280 kVA

Technical data

Rated frequency	1100 Hz
Frequency	700-1000 Hz
The output voltage with variable	40 - 250 Hz
Power supply	3 x 400 V
Supply frequency	50 Hz
The system mains	TN
Cooling water consumption	60 l / min
Admissible supply temperature cooling circuit	+ 12 ° C - 28 ° C
Water pressure refrigeration circuit	0.3 - 0.5 MPa
The water in the internal cooling circuit of the inverter	demineralized water at pH = 7 -8.5 and a conductivity of 0.5 mS up.

Delivery time immediatley
