

Reconditioning of StrikoWestofen StrikoMelter melting furnace

manufacturer :
partnership

Product number:
RO5010

Description

Article-Nr.	Model	Capacity [kg]	melting capacity [kg/h]
RO5010	Strikomelter MB1 1250/500	1250	500
RO5020	Strikomelter MB1 1250/750	1250	750
RO5030	Strikomelter MB2 1500/500	1500	500
RO5040	Strikomelter MB2 1500/750	1500	750

Article-Nr.	Model	Capacity [kg]	melting capacity [kg/h]
RO5050	Strikomelter MH -B 3000/1000	3000	1000
RO5060	Strikomelter MH -B 4000/1500	4000	1500
RO5070	Strikomelter MH -B 5000/2000	5000	2000

Refractory linings of furnaces

- Advice on the material selection
- Removal of the old lining manually and with machines
- Furnace linings with refractory concrete or bricks
- Formwork production (chimneys, burners)
- Monitoring of the drying process

Filters, pots and foundry sinks renovation

- Advice on the material selection
- Removal of the old lining manually and with machines
- Furnace linings with refractory concrete or brickbetoni
- Formwork production
