 A photograph of the Yxlon MU2000 X-ray control system. It consists of a large, light-colored metal cabinet with two computer monitors mounted on top. The left monitor is larger and displays a dark screen, while the right monitor is smaller. Below the monitors are various control panels, buttons, and a keyboard. A blue folder or document is hanging from the front of the cabinet. A small orange label with the date '08.07.2013' is visible on the lower left corner of the cabinet.
